## WORK EXPERIENCE

### ORION HEALTH, SOFTWARE ENGINEER

**April 2022 - February 2025** (2 years 11 months) | **Auckland, New Zealand** (Permanent, Full-time, Remote)

I contributed to the design and development of the Digital Front Door, a consumer engagement platform which enhances the digital experience and empowers clinicians and patients.

My responsibilities included:

- Understanding clients problem and requirements and proposing solutions that effectively met their expectations.
- Communicating and discussing concepts and designs with other team members to address customer needs.
- Building and maintaining a library of reusable UI components and features within an Agile environment using diverse technology stack including **HTML, CSS, JavaScript, TypeScript, React, Redux, Jest, Strapi (NodeJS headless CMS), Python, Git, Docker and AWS**.
- Mentoring graduates and interns, providing guidance and support to foster their technical skills.

### GAP YEAR, CAREER BREAK

**October 2019 - March 2022** (2 years 6 months) | **New Zealand**

Traveled from France to New Zealand for new life experience to broaden my personal growth. This experience enhanced my English language proficiency, while also boosting my cultural awareness, adaptability and resilience. Additionally navigating through new environments and challenges strengthened my problem-solving abilities.

### ORANGE BUSINESS SERVICES, FULL STACK WEB DEVELOPER

**September 2016 - September 2019** (3 years 1 month) | **Rennes, France** (Permanent, Full-time, On-site)

I contributed to designing and developing the Flux Vision web portal from scratch with the devteam using Agile methodologies (Scrum and Kanban)

My responsibilities included:

- Collaborating closely with the UX team to align the user interface with client requirements and ensure an intuitive user experience.
- Implementing robust features using **JHipster, Java, Spring, Angular and TypeScript**.
- Conducting testing and troubleshooting to deliver high-quality releases.
- Managing dependencies and builds using Maven, and version control with Git.

---

## EDUCATION

**INSA Engineering school, Engineering Degree - Master's Level in Computer Science**

**2012 - 2016 | Rennes, France**

Software Design and Software Development

**INSA Engineering school, Preparatory education for engineering careers**

**2011 - 2012 | Rennes, France**

General scientific and technical education

**Université du Maine, One year of Bachelor's degree**

**2010 - 2011 | Le Mans, France**

Mathematics
